That's fine Hyun, can you send me the violin plots like you made for CCR8 but for CTLA4, CD25, and Foxp3?

Thanks!

Nathan

**Subject:** Next Mon Meeting Schedule

Hi Nathan, Angeline,

Next Monday will be my lab meeting presentation. I wonder whether we can postpone this meeting for a week so that I can focus on my Wenjun group meeting on Tue, and Nathan can also focus on his Research in progress presentation on Tue.

If your schedule does not allow this, I will just do it on Mon.

Have a great weekend!  
Hyun
